RYE GETS INTO SENATOR'S RACE

Complicating Turn in Political Situation in Tennessee Thereby Caused.

PRELIMINARY STATEMENT

Promises to Conduct Campaign on Lines to Comport With True Ideals of State.

The expected has happened. Gov. Tom C. Rye has announced his candidacy for the United States senate. This move in the political field will result in giving added interest to this race, now a three-cornered contest, with three of the state's best known politicians and seasoned campaigners in the ring.

It is not believed that Gov. Rye's entrance will affect the attitude of either of the other candidates, Judge John K. Shields, the present senator, and Gen. Charles T. Cates, former attorney-general of Tennessee, who have been

in the race for several months. The effect of Gov. Rye's entrance may, to some extent, embarrass the politicians who had already lined up on one side or the other. There perhaps may be some already pledged to either of the other candidates, not expecting Gov. Rye's entrance, and these will have to do some pretty lively skirmishing to get from under and into the Rye column.

However this may be, the announcement will cause a lot of interest.

Gov. Rye's announcement, issued late

Monday afternoon, is as follows:
"Yielding to the solicitation of
friends and desiring to further serve
my people, I have decided to enter the
contest for the democratic nomination for United States senator. In reaching this decision, I am not unmindful of the dignity and responsibility of the high and honorable position which the people, for the first time in the history of our state, are called upon directly to fill by a legalized primary, to be held on the first Thursday in August. I have decided to enter the contest because the people, in whom I have implicit confidence and upon whom I have always relied in every political contest in which I have engaged, will trailed in behind the selectmen and have a voice in the selection of the man who shall represent them in the so everyone filed down to the Terminal As the train pulled slowly.

"I shall endeavor to conduct my candidacy in such manner as to comport with the true ideals of Tennessee, not forgetting that hearts of our people are with the boys in line of duty and are more concerned about the issues involved in the present war than they are in the personal fortunes of any individual, and, knowing as I do whos the care of Tennessee is and should be at this time, no unseemly canvass will be indulged in by me, and the added duties and responsibilities now resting upon me by reason of the titanic struggle for humanity in which we are engaged will not be neglected.

"I would be untrue to my feelings to attempt to draw the public's mind from the things that concern us most of all at this time, simply to gratify some personal ambition.

"As it becomes necessary and desirable on the part of the people to know my views and feelings on public questions affecting their interests, I shall hasten to declare my attitude. I trust that my statement declaring my candidacy will meet the demands of a generous public at this time and will serve as a full and complete answer to all inquiries insofar as the people have evidenced an interest as to my intentions in this matter.

"I am deeply grateful to an indulgent public for the confidence reposed in me in the past, and, if my course in office and the service ren-dered are any guarantee of fidelity, I offer them as my only bond and pledge of future conduct "TOM C. RYE."

For hours Market street had been crowded and rumors that the selectmen would be along in a few minutes passed along the thoroughfare. At 6:10 the head of the procession appeared threading the long lane of cheering people. Mrs. D. P. Montague bore the flag immediately behind the Stagmaier band. She was flanked on each side by a Confederate and a Union veteran, Dr. Y. L. Abernathy and Capt. C. W. Baker, respectively.

Behind the color-bearers came in the following order, women of the Service league, then H. C. Adler and Dr. G. Manning Ellis. The next rank was composed of J. B. Sizer, C. A. Carpenter, Lewis M. Coleman, Robert Hancock and Capt. Frank Delaney.

Following these men marched the eighty-four selectmen, two abreast, swinging along briskly to their unknown destination. They strung out half a block long, and immediately following came the quotas of the two city Clark and Dr. F. B. Stapp, for city board No. 1. This quota was in comand of John Crimmins. In actual combat snipers' posts are established along the trenches, and it is the duty of the snipers to keep all

heads down in the opposite trenches. Naturally, the sniper himself must be exposed. This requires that the posts resort to an elaborate system of cam-ouflage to prevent detection. If in his work a sniper knows that his post has been detected, the post can sometimes be preserved by making elaborate changes in the topography of the landscape during a night,

For instance, a tree stump might mark the rifleman's position. The stump would be uprooted and reset further down the line. A slight knoll might be dug down and an artificial elevation made somewhere else. Unless such confusing change is made, the post will likely be wiped out by artillery fire. However, it is a point of honor among snipers never to call ing Uncle Sam a shot. Another in-genious device for connecting faulty be any hope of the sniper getting the enemy sniper himself.
